Their offer =  $n\%$  of my offer, such that

$$\frac{n}{100} = \frac{\text{Their corporate domain wrecker price}}{\text{My perfectly reasonable offer}}$$

$$\text{Expressed as } \frac{n}{100} = \frac{\$5,000}{\$200}$$

Thus,  $n = 2,500$  ;

Their price is 2,500% ( $n\%$ ) of my offer.
